

MOHAMED IMRAN

SOFTWARE DEVELOPMENT ENGINEER

mdimran4511a@gmail.com | [LinkedIn](#) | [Github](#) | Chennai | +91 6384301911

PROFESSIONAL SUMMARY

B.E. Electronics & Communication Engineering student with a strong passion for software development and AI/ML technologies. Proficient in real-time hardware-software integration, IoT solutions, computer vision, web development, and workflow automation using n8n. Adaptable and quick learner, seeking opportunities to deliver innovative, efficient, and technology-driven solutions in AI, ML, IoT, web development, and automation projects.

EDUCATION

- B.E Electronics and Communication Engineering (Nov 2022 - May 2026)
(Agni college of Technology, Chennai) - CGPA : 7
- HSC (Higher Secondary Certificate) (Jun 2021 - May 2022)
(A.K.T Academy M.H.S.S, Kallakurichi) - Percentage : 75%

SKILLS

Programming Languages: Python, C, Java, JavaScript, SQL.

Web Development & UI/UX: HTML, CSS, Angular, React, Typescript, UI/UX Design.

AI/ML & Computer Vision: Tensorflow, OpenCV, Mediapipe, Machine Learning, Gesture Recognition.

Embedded Systems & IoT: Arduino, Raspberry Pi, Sensor Integration, Real-Time Data Acquisition.

Tools & Platforms: VS Code, Figma, Canva, n8n, Git/GitHub, Bootstrap, TinkerCad.

Soft Skills: Problem Solving, Critical Thinking, Teamwork, Leadership, Active Listening.

PROJECTS

- Gesture-Based Game Controller** - Built a gesture-based car game controller using (OpenCV + Mediapipe) replacing keyboard/joystick with hand inputs. Achieved ~92% recognition accuracy with <100ms response time, improving real-time game interactivity by 40%.
- Professional Finance Tracker** - Developed and deployed a finance dashboard for budgeting and savings goals with real-time data visualization. Automated reports reduced manual tracking effort by ~60% and improved decision-making efficiency by 45%.
- Air Quality Monitoring System** - Designed an IoT-based air quality monitor using sensors for real-time environmental tracking. Delivered 95% sensor data accuracy and reduced alert response time to <5 seconds, ensuring timely health and safety notifications.

EXPERIENCE

- UI Developer Course** - Organized by ICT Academy & Infosys Foundation (July 21 - August 13, 2025)
Completed an intensive UI Development Program, gaining hands-on experience in HTML5, CSS3, JavaScript, Angular, React.js, and UI/UX best practices. Developed real-world front-end projects and enhanced both technical and professional skills aligned with industry standards.

CERTIFICATES

- UI Developer Course - ICT Academy & Infosys Foundation (2025).
- Python Programming internship - SystemTron Edutech (2024).
